Mr. Coffee DW13 Base Removal

This will teach you how to remove the base of the coffeemaker, exposing all of the inner parts.

Written By: Tess Bradley

INTRODUCTION

In order to remove the base of your Mr. Coffee DW13, you will need to position the coffee machine so that the bottom is facing you. After, you will remove eight screws and gently lift the cover from the base.

TOOLS:

- Phillips #2 Screwdriver (1)

Step 1 — Base

- ⚠ Before performing this repair, be sure that your machine is unplugged and dry and that your work space is clean.
- Flip the Mr. Coffee DW13 over so that the lid is facing away from you and the base is facing toward you.

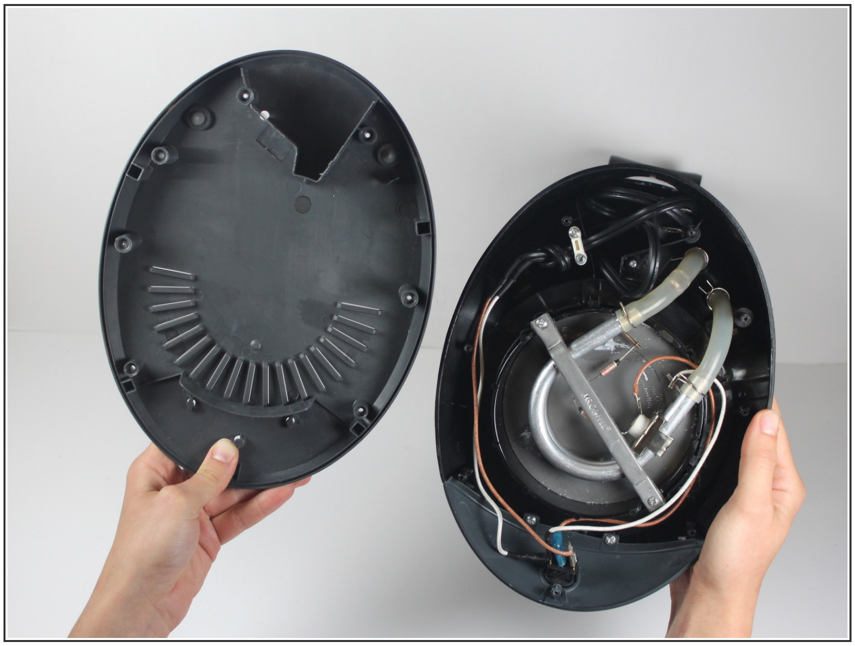

Step 2

- Remove the eight 11 mm screws that secure the base of the machine with a Phillips Head #2 screwdriver.

Step 3

- Gently lift the base cover to expose the inside of the coffee machine.

To reassemble your device, follow these instructions in reverse order.
